Schedule Lesson Activity Diagram

Schedule Lesson Activity Diagram
Scope: Covers scheduling a driving lesson from account access through availability checking, driver and vehicle assignment, reservation confirmation, saving the reservation, and sending confirmation. Includes customer or secretary initiation and the DriverPass System's availability and assignment handling.

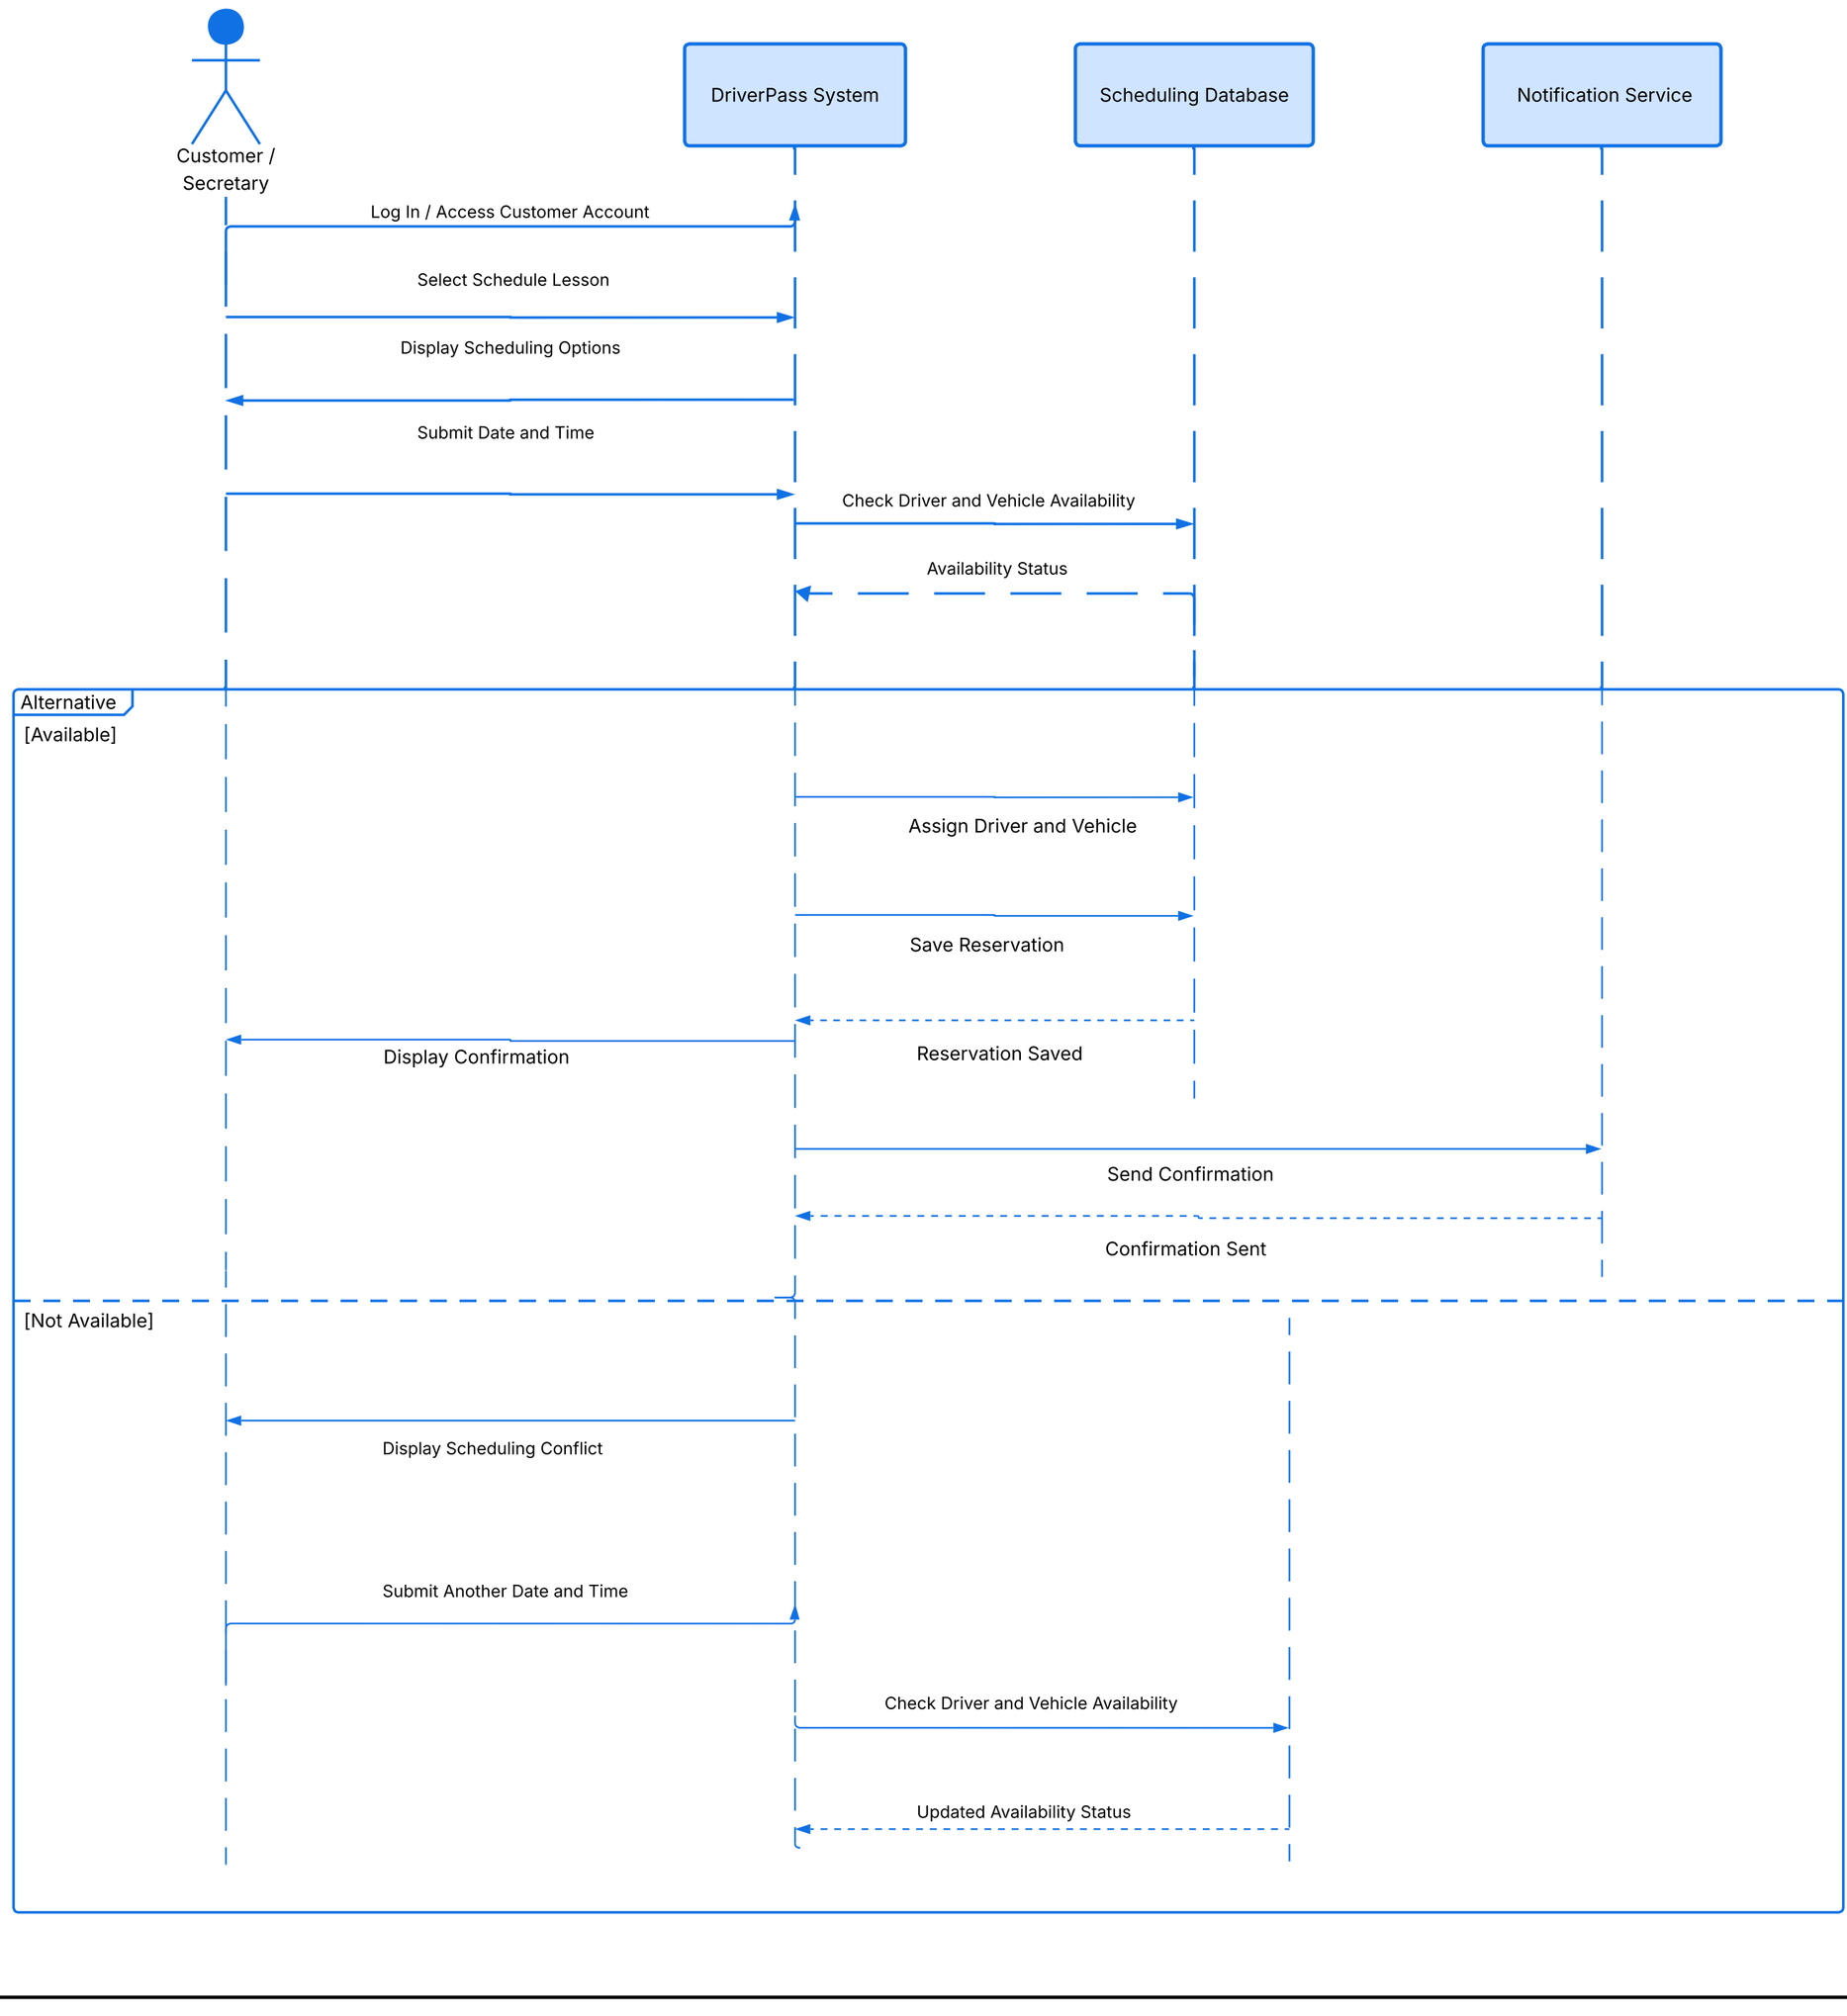

Take Practice Test Activity Diagram

Take Practice Test Activity Diagram
Scope: Covers taking a DriverPass practice test from customer account access through question answering, answer recording, question-loop handling, score calculation, test progress updates, result display, and customer review of results.

DriverPass Appointment Scheduling Sequence

Scope: Covers scheduling a driving lesson from account access through availability checking driver and vehicle assignment, reservation confirmation, saving the reservation, and sending confirmation. Includes customer or secretary initiation and the DriverPass System's availability and assignment handling.
